FOREIGN STUDENTS

Shahrian Hakimyacheh

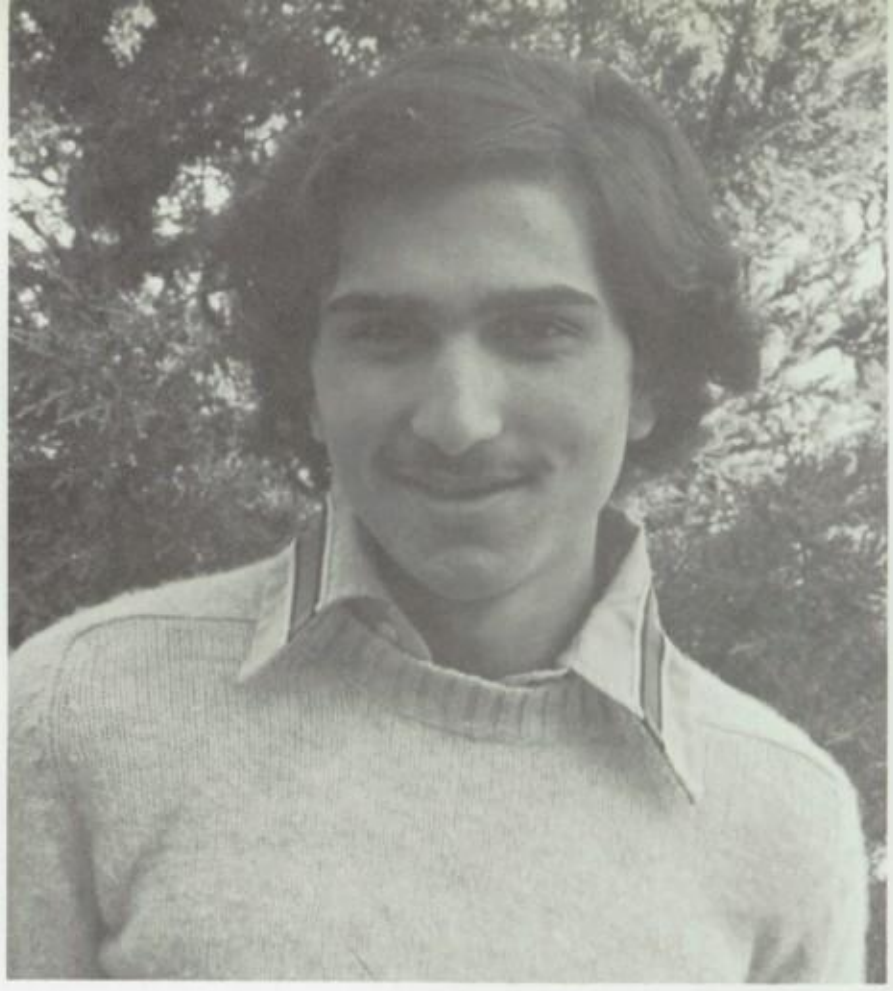
Shahrian Hakimyacheh is from Iran and likes it in America very much. Shahrian misses his family and friends but school takes up most of his time, making it easier for him. Shahkian believes U.S. teachers are the "best in the world!"

Shahrian favorite sport is soccer: a very popular sport throughout the world, and slowly gaining fans in the U.S. But to Americanize it, as Shahrian noticed, it has become complicated by machines.

Puyam Mobin is from Iran. He likes Colorado very much because he feels that he has more freedom here than in his country. Puyam enjoys studying here because he feels that education isn't as intense. Puyam has found most of the people he has met have been very nice, but he has run into a few that are unfriendly.

In Iran the basic sport is soccer, but since Puyam has been in the U.S. he has found a new sport: Football. Puyam enjoys football more than soccer for it "seems to be more fun."

In Iran there is not Christmas, but there is a festive occasion that they do celebrate called "Norooz", it is celebrated very much like Christmas.



Ramin Tibib

Ramin Tabib visited the U.S. five years ago and has liked it ever since. Ramin feels very fortunate to have had the opportunity to spend two years in the United States so far, and hopes to spend more time here. Ramin is also from Iran and he likes the people of the U.S. very much.

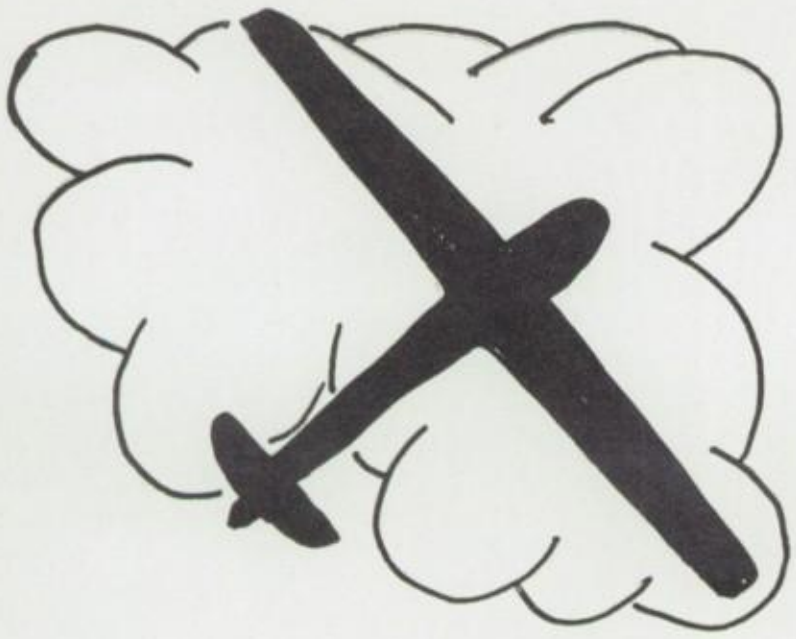
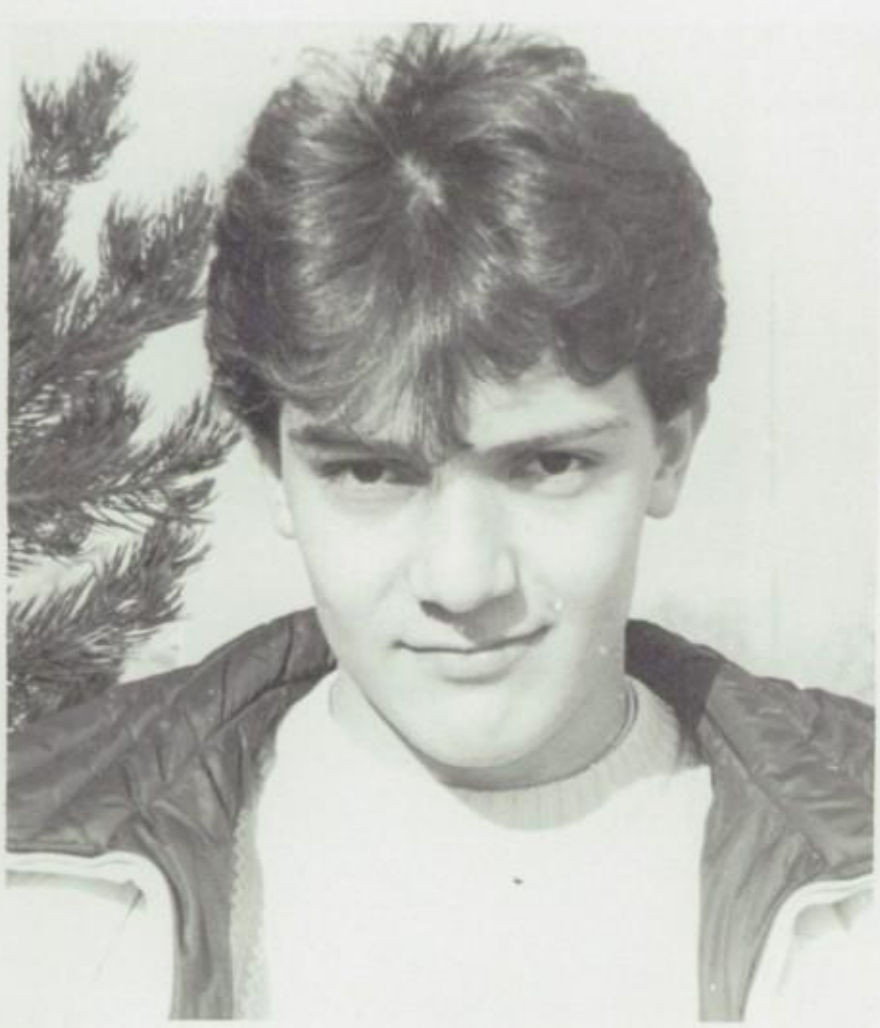
Nazim Salur discusses current events with Jenny McMillen





Nazim Salur

Erica Lindqvist

Erica Lindqvist is from Sweden and has only been in the United States since the end of the first quarter. Erica believes the Colorado climate is much warmer and dryer than Sweden's climate.

Erica believes Americans eat much more junkfood than Swedes. She likes hamburgers and popcorn the best.

There are no girl sports in school in Sweden, so Erica hasn't been able to learn much about sports. Also, in Erica's school, there are no cheerleaders. The only basic sports that Sweeden has are Skiing, Hockey and Soccer. So girls' sports, and the variety of sports, is a new experience for Erica.

TO THE U.S.A.

Nazim Salur is a senior from Turkey. Nazim doesn't particularly enjoy the cold weather, Turkey has a much warmer climate. However, Nazim likes most everything else about America.

Nazim is Moslem, which is his religion not his nationality. Comparable to the Catholic Christmas, Moslems have two main holidays, one of which is "after the month of Ramadam, when Moslems fast." Actually, they only eat between sun down and sun up, then two and one half months later, Moslems sacrifice a lamb, which may sound very primitive to a non-Moslem, but the meat of the lamb is then distributed among the poor people of the country.

When asked what he expected when he first came to America, Nazim replied, "I expected to meet a lot of nice people-whom I met, and I also expected to face some difficulties which I unfortunately faced." Difficulties of which anyone could face anywhere in the world.

ACADEMICS

Forget Something?

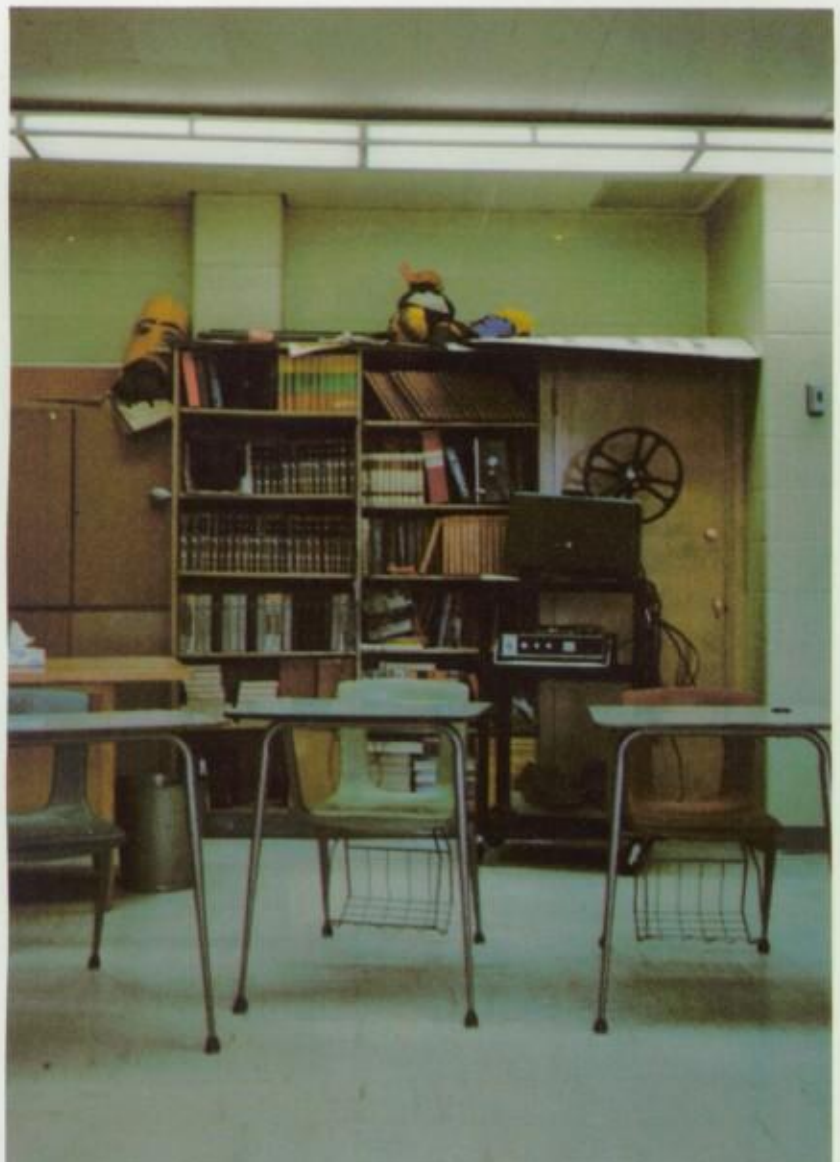
Group discussions in physics really get off the ground.

Every student looks on their classes with different emotions.

Sara McCellan looks like a typical P.H.S. student.

ACADEMICS ARE MANY FACETED

David Maes, the frustrated French chef.



The English department covers many more subjects than nouns, verbs, and prepositional phrases. It is drama, art, media, history, and literature.

Foreign language students are always hungry, especially Kris Stuart and Connie Boyer.

Academics are an important part of Poudre High School. In fact, without them, one cannot graduate. During the three years one is in high school, a variety of classes can be taken. Opportunities are in many categories ranging from Math and Science to English and Social Studies. In these areas, a student is offered different levels of difficulty to meet his needs. Classes need not be boring; activities make classes exciting. Foreign language class cooks, math classes participate in math field days, and a science class would not be complete without the numerous experiments. If one participates, academics can be fun.

Home Economics teaches many valuable skills which are needed throughout life

Kurt Hoeven swings his way into state competition.*

This years P.H.S. Tennis Team's title "2nd To None." is very appropriate. The Tennis Team placed first in Conference, first in District, and broke a conference record by taking five out of six first places. The entire team qualified for state, a feat never before accomplished at Poudre High. Their grand finale was tying for second place at the state tournament. This also is a title Poudre never has claimed. Individually, Hank Brumley, number two singles, placed second, John Valdez, number three singles placed third, Eric Tacoronte and Joe Valdez number two doubles placed second and number three doubles, Brian Hockett and Todd Rodgers also took second place. It was the greatest year Poudre has ever had!! Congratulations to the 1979-80 P.H.S. Tennis Team.

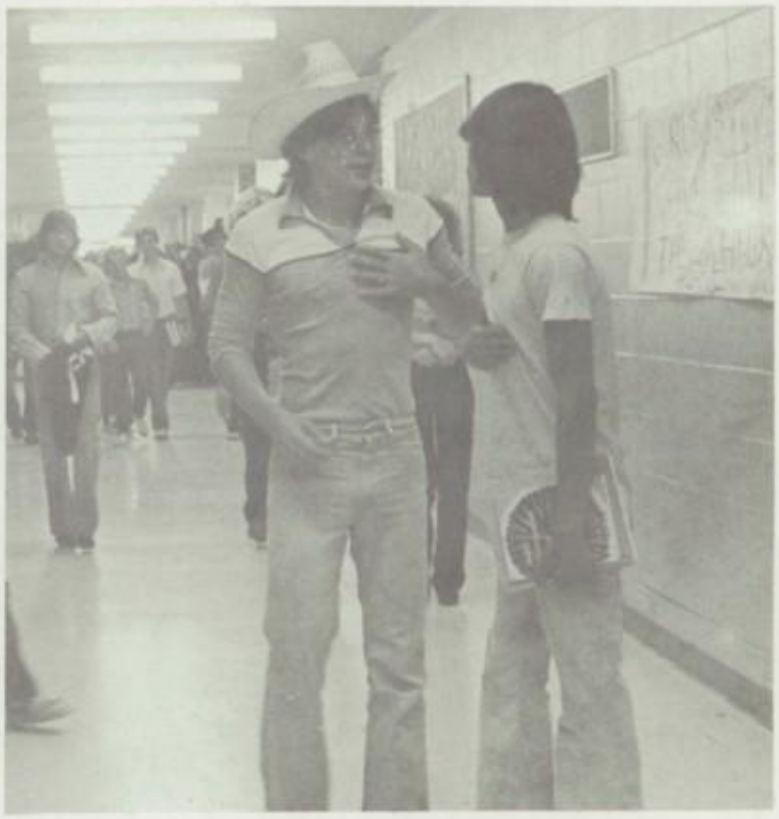
The Olsen or Olson brothers take their drumming seriously.



Jerry Roldan and Ed Baca solve a conflict in the main hall.

Sonya smiles at the joke on Donna.

Keith Engell reacts to the atmosphere of the library.

The cast of the fall musical, "Anything Goes," works long and hard after school.

Enthusiasm soars at Halloween assembly.

Along with many other Impalas, Brian Gueswell's favorite activity is eating.

Many art students were enthralled by Sam Lenter during the Artist's Workshop.

By the end of a long day, many students like Tammy Little have headaches.

Hank Brumley, Karen Schantz, Sara McClellan, and Charles Cunningham discuss activities during Student Council.

1,080 hours; 64,800 minutes; 3,888,000 seconds. During these numerous hours, minutes, and seconds in school, everyone is making memories to last for many years to come. The student life at Poudre High School is spent in activities with friends. The activities range from clubs to plays to sports. All of these offer chances to meet and work with various students. General goofing around is another major pastime of students. Whether students are sitting by the planter, in the cafeteria, or whatever, the interaction with other students constitute the memories which carry on. Long after the knowledge teachers vainly try to pound in students' heads dissipates, the memories accumulated from time spent with friends remains.

The Great American tradition is being upheld at Poudre High School by eight women. Through thick and thin, these women, cooks, prepare lunch for numerous students. The cooks have to plan ahead. Since the food must be ordered two weeks in advance, they must estimate the quantity consumed by students. In one week, 327 pounds of hamburger (real, not half soybean) are used. Some cooks, like Wilma Ball, have been cooking at Poudre for 13 years and have vast experience in planning menus. Although few students realize it, once a month a member of student council helps the cooks plan a menu. Besides having students plan menus, the kitchen also provides commodities (food from the government) for the Home Economics classes. As one can see from this article the cooks *do* uphold the Great American tradition.

Mrs. Glenn and all the club members would like to get this straight: HEO is the class and HERO is the club within the class. The clubs meet in each HEO class.

Home Economics Related Occupations deals with assuming roles in society through home economics. Personal growth, family life, vocational preparation, and community involvement are areas covered. Throughout the year, HERO members plan fund-raising, service, and social projects.

Students also attend district and state conferences. At state, they compete in areas such as fashion merchandising, interior design and food service.

Back Row: Kelly Bridwell, Jessie Guitron, Mark Rodriquez, Albert Urban, Kathy Seeley. Middle Row: Teresa Briggs, Colleen Vance, Rose DeVore, Caroline Dale, Tracy Dyer, Sandy Petersen, Chris Patton, Shanda Hendrix, Tina Spence, Mrs. Glenn.

Are you interested in the business field as a career? DE is designed specifically for the marketing and distribution career student. DE's purpose is to create interest in all phases of marketing and distribution study. DE chapters are to Marketing and Distributive Education students what a civic or professional organization is to a group of business people. So, this is your chance!

FBLA

Top row: Mike Wiggett, Laurie Turk, Ruth Morrow, Dana Jackson, Ellen Joder, Julie Svoboda, Judy Halvorson, Terri Noyer, Mary Lecheler, Debbie Mitchell, Lori Peatrowsky, Patti Walker. It's Flabby Bull-Legged Americans! It's Football Lovers of America! No, it's Future Business Leaders of America!!!

Students involved in FBLA are interested in preparing for careers in business. Their major goal is to raise enough money to send members to district, state, and possibly national competition. They choose the business skill they want to compete in.

Community and school service projects make up the club's activities. Members painted Poudre's trash cans at the beginning of the year. During the Christmas season, FBLA worked with the fire department in providing toys for needy children of Fort Collins.

NAHS

Beth and Caroline work on color book designs.

Remember all those great art displays on the bulletin board in the library? That was the work of the members of the National Art Honor Society. The art teachers, Mr. Berger, Mr. Hubka, and Mrs. Lutkin sponsor this club, which originated last year.

This society was established to recognize those high school students who showed outstanding ability in art and to encourage participation in art by all students.

The club's activities this year included a trip to Denver University for a portfolio critique, guest speakers at meetings, the designing of a coloring book for kids, and trips to various locations for sketching.

Honorable students (in other words, "brains") make up Poudre's National Honor Society, sponsored by Mrs. Ruff.

This year, students had the opportunity to take on a project to earn academic letters. Eligibility requirements are tough and members must maintain a 3.7 grade average through high school. They must carry a certain number of academic units in their junior and senior years. They must also pass citizenship or character requirements which are judged by a panel of teachers.

SILVER QUILL

Tracy's enthusiasm is hard to hide.

Did you know that Poudre High School has an "ear"? That is how one could describe the Silver Quill. The staff keeps in touch with the happenings in and around Poudre. Several members of the staff have experience from previous years. This year, they publish a paper every two weeks with circulation on Friday's.

Top row: Jon Pennington, Mrs. Oldemeyer, Susie Pierson, Tracy Wilson, Mark Helbert. Bottom row: Steve Brown, Allen Masters, Kelly Amerine, Dan Weitz, Susan Burnett. Not pictured: Pat Brant, Mike Malone, Kathy Stuart, Bob Warner.

Jim and Laura don't sweat Mr. Van's threats.

We tried. We couldn't have done it without Mr. Van's pep talks. We hope this book is capable of securing your memories of high school. (Especially seniors!!!)

Trina's happy at her work.

Even editors find time to smile.

John breathes.

RODEO CLUB

Back row: Robin Miles, Brandi Herring, Johnna Hanly, Rob Poole, D.A. Black, Eric Cler, Rusty Wilford; Front row: Debbie Aylor, Terri Nauta, Donna Stewart, Mary Lecheler, Lynne Krist, Lindy Byler, Sandi Petersen.

Larimer County High School Rodeo Club is made up of kids in the ninth through twelfth grades.

This year, their season rodeo was in May. Each club in Colorado puts on these rodeos. If things go good, they may get to go to state and then .... NATIONALS!

Last year, Larimer County's club won the team trophy at state finals. Their members obtained the most points of any club in Colorado. That just goes to show you — Poudre's cowboys and cowgirls are the best.

Those Monday night meetings bring out the best in everyone.
